## CONFERENCE OBJECTIVE

The conference aims to bring together leading practitioners and academics to discuss the latest advancements and future potential of AI in finance. It's an opportunity to explore how AI-driven innovations are shaping financial research and the financial landscape as well as what that means for academics, businesses, investors, and consumers.

## THE CONFERENCE

Conference Co-Chairs:

Alexis Stokes, J.D., Dean and Professor of Business Law,  
The Bill Munday School of Business, St. Edward's University

Ivilina Popova, Ph.D., Professor of Finance,  
McCoy College of Business, Texas State University

Keynote Speaker: Dr. Yves Hilpisch

Plenary Speaker: Jason Ramchandani

Scientific Committee:

Dr. Yves Hilpisch, Dr. Ivilina Popova, Dr. Ha-Chin Yi, Dr. Janet Payne, Dr. Leyuan You, Dr. Emmanuel Alanis, Dr. Matt Flynn, Dr. Ishita Kumar

## CONFERENCE HIGHLIGHTS

### Keynote & Plenary

Prominent speakers from industry and academia will offer cutting-edge insights.

### Panel Discussions

Expert panels will delve into specific AI applications in finance, discussing ethical considerations, regulatory challenges, and future directions.

### Talks

Researchers and practitioners will present their latest work, followed by Q&A sessions for in-depth discussions.
